Six Camps To Send Best Boxers

Those who enjoy witnessing exhibitions of the manly art of defense will want to attend the big boxing tournament between CCC men Saturday night. The best talent from six camps will battle it out for district supremacy. The big mill will be held at Grayling School gymnasium.

Preliminary bouts will be held in the afternoon, beginning at 1:00 o'clock. The finals will take place at 8:00 p. m.

The following camps will be represented by one or more fighters: Camp Higgins Lake (672); Camp AuSable (681); Camp Hartwick Pines (674); Camp Pioneer (1611); Camp Houghton Lake (684); Camp Kalkaska (2685). Already 60 entrants have been registered. The winners will go to Camp Custer to train for the Golden Gloves for 1936.

The bouts will be held under auspices of the A.A.U. and Oyesa Boxing association. The referee and inspector are to be licensed A.A.U. officials. All officials and judges will be from outside of the 4th district CCC area.

The general admission price will be 50 cents in the evening, with a charge of 75 cents for rineside seats.

While this is a CCC affair, still the general public is invited. This includes ladies as well as men.

Reserved seats are on sale at O. Sorenson & Sons store for the matches.

DENNO-GALLOWAY

Miss Elsie Galloway, daughter of Mr. and Mrs. Alfred Galloway and Raymond Denno, nephew of Mrs. Jens Hanson were united in marriage Tuesday evening at the home of the brides parents. Rev. Edgar Flory officiated at the ceremony and the bride's cousins Miss Eva and Sidney Cunningham attended the young couple.

Following the ceremony a wedding supper was served to some 60 relatives and friends. Flowers for the wedding were furnished by the Hanson restaurant, where the bride had been employed for six years. The bride was the recipient of many beautiful gifts and the happy couple have the best wishes of a host of friends.

AUDITING COMMITTEE COMPLETES LOCAL BANK OFFICERS

The Stockholders' Auditing Committee of Grayling State Savings Bank made its regular semi-annual audit of the affairs of the bank last Wednesday. The members of the committee are T. P. Peterson, Alfred Hanson, and George N. Olson. After a thorough audit had been completed, the committee closed its report to the State Banking Department with the following remarks: This committee after completing the audit wishes to compliment the officers, directors and employees for the splendid condition of the bank and the manner in which the business has been conducted since last audit.

M. S. C. Prof. To Give Landscape Talks

The enthusiastic response which O. I. Gregg, Extension Landscape Specialist, received at the Home Economics Extension Achievement Day and at the meeting at Grayling last spring has made it possible for me to secure him for a series of three meetings during the winter. These meetings will deal with the essential principles to be followed in making a landscape plan which is convenient as well as beautiful, the selection of desirable shrubs and perennials and their arrangement around the buildings, and the care to give the various types of plantings to produce a thrifty growth.

Those of you who have had the opportunity to hear Mr. Gregg will realize that the beautification of the home or farm grounds need not involve a great expense, as the use of native trees and shrubs will do wonders to any house.

I am sure you will find this series of lectures both interesting and practical and trust that I will have the opportunity of seeing you at these meetings.

The first meeting is being held at the courthouse at Grayling on Thursday, December 5, at 2:30 p. m. The following meetings will be held on March 10 and April 1, 1936.

Yours truly,

Arthur Glidden,
County Agr'l. Agent.

Cubs Play Cadillac Here Friday Night

The Grayling Cubs, local independent basketball team, have organized for the coming season. The squad has been practicing steadily for the past three weeks to be in shape for the opening game here Friday night, Dec. 6.

The Cubs have added Cornell and Harrison to their roster for this year and others may be added later. With this addition to their club they will place on the floor one of the fastest and strongest quintets in this section of the state.

During the coming season the Cubs will endeavor to bring to the local fans some of the leading teams in the state. Games with Traverse City, Clare, McClanahan Oils, Alpena and other teams of importance are now being arranged for. We hope the people who really enjoy fine basketball will be on hand to witness some of these games. Your support will be greatly appreciated by the team.

The team is being sponsored by the Hanson Cafe through the aid of "Jimmy" Bugby and is now indebted to Jimmy for those classy jackets the team is now wearing with "Hanson Cafe" printed on the back.

The opening game of the Cubs schedule will be this Friday night with Cadillac. They promise to bring a team of high rating in that neighborhood and assure the public a real battle. Cadillac has been noted for strong teams in the past and this team will make every effort to live up to its traditions.

There will be a preliminary game at 7:30 and the feature game will start at 8:30. Admission 10 and 25 cents. Be on hand to witness the opener.

Kiwanians Hear Brilliant Young Speaker

BEN EAST, OUTDOOR WRITER
WAS GUEST SPEAKER

Ben East, noted outdoor writer and lecturer, addressed the Grayling Kiwanis club at its meeting today at the Shoppenagons Inn. The meeting, usually held Wednesday noon, was postponed one day in order to hear the visitor who is outdoor editor of The Bay City Daily Times and associated Booth papers. He came here under auspices of The Times.

This will mark the first time in history that East has spoken here, and Kiwanians turned out in almost 100 per cent attendance at the meeting which was held at noon. Accompanying East was Ambrose J. Maxwell, manager of the Bay City Chamber of Commerce, Ben G. Wright, of the East Michigan Tourist association, and Glenn MacDonald, managing editor of The Times.

The visit to Grayling was one of eight stops East had scheduled on a three-day visit to northeastern Michigan. He also talked at Bay City, Gaylord, West Branch, Sebawaing and Bad Axe. After talking here, East visited the local fish hatchery, the Hartwick Pines, and winter sports park.

East is one of the foremost conservation experts of the middle-west. In addition to conducting the outdoor pages of eight daily

BEN EAST

papers in Michigan, he is kept busy the year 'round with addresses and with writing magazine articles. He has done a great deal to publicize the recreational facilities of Michigan, and at the same time manages always to pay strict attention to the activities at Lansing which bear on outdoor life.

His address is supplemented by a series of attractive lantern slides showing many places of interest in all parts of Michigan. These are particularly appealing to sportsman and tourist alike, for they depict fishing, hunting and scenic attractions. Each place is known intimately to East, for he has covered every inch of the state scores of times in his constant travel to unearth new and more interesting stories of Michigan's vast outdoors.

East has all the qualities that go to make up a well-rounded outdoor writer. He has a basic interest in nature lore, is an authority on snakes, birds and flowers, comprehends the workings of the conservation commission thoroughly, and at the same time, fully appreciates the problems of the hunter and fisherman, for he spends considerable time at each sport. For years he has written and talked of the scenic wonders Michigan possesses. His stories and speeches have done much to encourage the heavy flow of tourist travel which increases greatly each year in Michigan.

Those who heard East speak at the East Michigan Tourist association jubilee banquet at Bay City, last month were thrilled by his eloquence. It was one of the finest addresses ever given on outdoor affairs, and drew widespread praise from those in the banquet room as well as the countless thousands who heard the talk over the radio.

FREDERIC SCHOOL TEACHER WEDS

The marriage of Miss Jane Brewer to Mr. Clayton Long was a surprise to all. A quiet wedding took place on Friday, November 29th at noon. The marriage vows were spoken at the parsonage in East Tawas, Rev. Gregory performing the ceremony, with Mr. Brooks and Mrs. Gregory as attendants. A wedding dinner was served at the home of Mrs. Brooks at East Tawas.

Mrs. Long is teaching in the Frederic High School, and intends to carry on her work at the school for this school year. Mr. Long is a lighthouse keeper at Tawas Point. The couple plan to live at East Tawas after the school year.

MISS BEHNKE TALKS TO
GRAYLING WOMAN'S CLUB

Miss Marie Behnke, representing Mrs. Frederick A. Alger, a former member of Michigan's Liquor Control commission, recently spoke to the members of Grayling's Woman's club on the subject of "Temperance Education." Miss Behnke's home is in Mt. Clemens. In her address she said the following:

In the history of every movement there comes a day of reckoning, a day when advocates of the movement must render an accounting—and laying aside rhetoric and theorizing, face facts as they are, not as they would have them. It is in this situation that the advocates of National Repeal find themselves today.

The success of Repeal—which was really a movement towards Temperance—rests on the individual. There are always a certain number of people who shirk a responsibility. There are always a few who by their weakness will shirk the responsibility placed on them by Repeal, and will over-indulge in the drinking of alcoholic beverages.

There is now a superfluity of good intention among those who have promoted the repeal of Prohibition. There is even the implied hope that human nature has undergone a change and that men who have acquired the appetite for hard liquor will lose it now that its indulgence is no longer illegal. In some quarters there is also the hope that "popular education regarding the effect of alcohol"—will contribute greatly to the solution of the problem. But in the past that form of "popular education" has contained more propaganda—and nearly as much falsehood and prejudice as truth and wise counsel. The exaggeration and misrepresentation that have characterized anti-alcoholic propaganda have defeated, instead of aided, the cause for which it should have been used. Prejudices in both directions must be replaced by a more scientific attitude based not on sentiment but on facts, and a simple chemical conception.

The repeal of prohibition has necessitated an emphasis on teaching the effects of alcohol on the human body and mind. With alcohol in the form of beer, wine and spirits now legally available, it is imperative that boys and girls be taught their effects. It is for this purpose that the following facts are spoken of as suggestions for future study.

1—Established facts, authoritative and objective.
2—It shall be neutral in regards to religion, politics and from propaganda elements.
3—These principles apply to temperance education, not only in the public schools but also to various forms outside the school.
4th and finally—as regards the selection of topics for instruction—the liquor question should in conformity with the actual development of the problem, above all be regarded as a social question—with a generous mixture of ethical, medical and economic consideration.
In order to reach all the temperance education should be carried on within as well as outside the school. The educational (Continued on page 3)

Legion Jottings

The Drum & Bugle practice last Thursday evening was largely attended and the boys sure showed marked improvement.

Saturday evening saw the last of the Feather Parties put on for the benefit of the American Legion for this year and we wish to thank the public for the patronage given us at these parties. Our crowds were not as large as in former years but we are very thankful to have had the attendance which we received.

Monday evening our usual practice took place with nearly all the Corps in attendance, and many tales of deer hunting were related and we sure believe there are more deer than ever left to take a look at the boys this summer. At this meeting it was decided to go to Clare with the Drum & Bugle Corps to attend the 10th District meeting.

Get in you ex-service men and pull with the rest of your Buddies, and let's have the Bonus now. Our membership is growing each day. How about you putting your name on the dotted line?

The Auxiliary has subscribed for a magazine for boys and one for girls that will reach the township library regularly.

The last social meeting of the Auxiliary was much enjoyed, with 14 members present.

Tuesday was the day of the 10th District meeting at Clare and the American Legion Drum & Bugle Corps having been invited to play at this meeting the boys all took off at noon or early in the afternoon.

Arriving at Clare the fellows were pretty well chilled but they got thawed out and then headed the first American Legion parade that city has ever had. Although that fine bunch of citizens was pleased, our boys were so cold after the parade that it was pitiful.

After a few minutes of warming up and talking things over we were then told the soup was hot, but on reaching the banquet hall we found a spread that would be fit for a king. After the eats a program was held and Comrade Alfred Hanson, Tenth Dist. Committeeman, introduced the guests. Hon. Roy O. Woodruff, Tenth Dist. Congressman, was the main speaker. Following the program our Corps was called on to play some of their selections in the hall and received hearty applause. Then business places of Clare were serenaded and everywhere the Legion received hearty welcome.

Dancing and a floor show were enjoyed immensely.
Walter H. Larman, Post No. 128, and the Auxiliary of Clare, deserve a lot of praise for being such royal hosts. The meeting was a success in every way.

G. H. S. Defeats Harbor Springs

Harbor Springs' flashy basketball squad was defeated on their own floor by Grayling High School's green-clad representatives, 23-19.

As the score indicates, this was a very close game with the Harbor team leading at the end of the first quarter, 3-2. Both teams were on the defensive and very little attempt to score was made.

In the second quarter the Northern Lights, basketball artists of Grayling High, really opened up and for eight minutes completely bewildered the Harbor outfit. With the fast break working perfectly, and accurate passing being done, the green and white squad just couldn't be stopped. The score at the half stood: Grayling 13; Harbor Springs 6.

The second half was much the same as the first with Grayling leading the scoring. At one time in the fourth quarter Grayling led 23 to 13. Then Harbor began to find the basket and raised their score to nineteen. It was a nip and tuck battle from then on and the score at the end was Grayling 23; Harbor Springs 19.

Smock, Chalker and Lovely led the scoring with Borchers, Brady and Hanson playing a brilliant defensive game.

The preliminary was a thrilling game from start to finish. Grayling's second squad won the battle in the last two seconds when Coutts made a beautiful one-handed shot. He made nine of his team's thirteen points and the score at the end of the game was 13-11.

THE CITY COUNCIL, at its meeting Monday night, passed a resolution to be forwarded to the State Liquor Commission requesting the re-establishment of a State liquor store here. We feel certain that the action by the council is in harmony with the wishes of most of our people, especially our business men. The

necessity for local dealers to drive to West Branch, Traverse City or Gaylord in order to get supplies adds a lot of financial cost to their business. A drive to any of these places means from 60 to 120 miles a trip. Besides it is claimed that some of these stores do not carry the assortment of liquors that assures supplying the wants of the dealers. It is estimated that the Grayling store during the 16 months it was in operation brot a net profit to the State of over \$6,000. Besides the store gave employment to two local men. Resorters in this region found the local store a great convenience. It is still possible to secure the old bank building that was used for the liquor store. This is all ready to move into without any changes. It is hoped that the Liquor Commission will grant the wishes of the council and the people.

THE TOWNSEND PLAN
 We have just finished reading a pamphlet called "The Townsend Plan." Between the covers of that pamphlet is an analysis of what some call a mad dream and what others call the solution to the problems of recovery. We hesitate to class the proposal in either of those extreme terms, but we do see in it the possibilities of it becoming a burning issue in the 1936 campaign. So far the Democratic and the Republican party leaders have shunned the pleas of those seeking adequate support for the aged. But in the near future, yes, in the very near future, they must recognize the issue and the "Townsendites" will have their day in court. If they don't the parties will be guilty of some very bad politics. Never in the history of this country has the question of social

security been so important. Why then, doesn't the administration in Washington give the followers of the Townsend plan some consideration? Why is the first serious effort to solve an important problem shunned by our leaders in the nation's capital? We do not mean to imply that the Townsend Plan necessarily is the answer to the question of security for the elderly people in the country. But we do believe that if Dr. Townsend and his followers who have given serious thought to the problem, were listened to, a workable and logical old age pension plan might be devised. Our state and federal governments have enacted some old age pension laws that are almost funny. They were seemingly passed not to afford security for elderly people, but to create jobs for government employees. The recipients, in most cases were better off when they were on the relief

rolls. Laws of that kind will never solve the problem. We need a system which will afford adequate security, whether it be called the Townsend plan or any other plan.—Crystal Falls Diamond Drill.

Supt. Heads T. B. Seal Campaign

With the enthusiastic support of Mr. Gerald Poor, Superintendent of Grayling schools, the Michigan Tuberculosis Association will launch its 29th annual seal sale following Thanksgiving day. The seal sale will continue through the Christmas holidays. Mr. Poor was recently appointed by the State Association to supplement the direct mail campaign by supervising seal sales among the pupils.

Although the school campaign is primarily for school pupils, adults not receiving their seals by direct mail may be supplied by the superintendent or his staff. Adults planning to be supplied by the school system are urged to purchase seals before the school holidays.

Christmas seal money supports the work of the Michigan Tuberculosis Association which bats tuberculosis in the state through health education, case finding, legislation, and research.

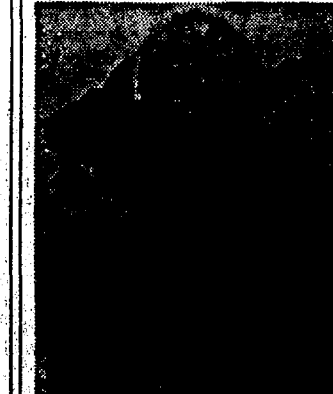

WALES-CADY

At a pretty wedding that was solemnized at Grand Rapids Saturday, Miss Lucille Cady, daughter of Mr. and Mrs. Ervin Cady became the bride of Mr. Erwin Wales, son of Mrs. Martha Wales of that city. At the same ceremony Miss Margaret Wales, sister of the groom was married to Mr. Raymond Bignall. Rev. Abraham Rynbrandt officiated. Following the ceremony the bridal party enjoyed a wedding dinner at the new home of the Bignalls. Miss Virginia Hartley, who is in Grand Rapids, attended the wedding.

Although Mrs. Wales has not lived in Grayling long she has already formed many warm friendships. Mr. Wales is a member of CCC camp 672 and is popular with his friends there.

The young couple will be at home to their friends at their apartment at the Frank Cochran residence. They have the best wishes of many friends.

Mr. and Mrs. A. H. Brady very pleasantly entertained the Married Peoples Card club Tuesday evening. Prizes were won by Mrs. Game, Frank Pond and H. C. Schmidt.

Jesse Bobenmoyer, a M. C. brakeman, while working on the Lewiston Branch, stepped from a flatcar into the presence of a "big" bear. Brother Bruin offered his paw for a friendly shake, but Jesse "offended in some way" took for the track. The bear equally surprised made his escape into the swamp near by.

The Danish one act opera, Intrigue, given by the Danish Sisterhood and Brotherhood societies at the opera house last Saturday evening was well attended and well received by the audience. The cast of characters was composed of the following young people: Miss Johanna Henriksen, Mrs. Laura Schroeder, Alec Bergen, Thorvald Peterson and Andreas Nielson. A special attraction of the program was the National dances. Costumes were worn to represent the nationality represented. Also Einar Rasmussen pleased the audience with a vocal solo and Mr. Scow gave a recitation and reading.

Dr. and Mrs. Claude Keyport entertained Mr. and Mrs. W. R. Keyport, parents of the doctor, and Miss Mabel Keyport, a sister, and Mr. Robert Downer, all of Bay City, for Thanksgiving.

The Hak-kai-dek-a club met with Miss Clella Clark, at the home of Mrs. George Smith, Monday evening.

Mr. and Mrs. J. K. Bates arrived here last Saturday from Maple Forest and will make their home with their son-in-law, H. L. Pond and family. Mr. Bates has opened a dairy and has eight milch cows.

George Alexander left Wednesday for Detroit on business.

As we were about to take up the painful duty of announcing the removal of Dr. and Mrs. C.

A. Canfield to Standish, we were informed that a change in affairs has caused the doctor to make different arrangements. We know that this will be pleasing news to the people of Grayling and vicinity. Dr. Canfield had agreed to purchase a dental office in that city and went there last week to take possession, but the seller backed out.

Mose McKinnon has resigned his position with the M. C. R. R. and left for Jackson Tuesday night.

Mr. and Mrs. Charles T. Jerome are both out again after having been shut in for several days with tonsillitis.

Olaf Sorenson & Sons have added a traveling salesman to their sales force; Irving Hodge is now carrying a grip for this firm.

The people of this place were shocked to hear of the death of Mrs. Katherine Nolan-Burke, formerly a resident of this city, who passed away on Thanksgiving morning, at her home in Lansing, where she lived with her father, Thomas Nolan. Soon after she was married she was left a widow, and with her little son, Frank, who is surviving her, lived with her parents, until they moved to Lansing. Besides her four brothers, Henry, John, Edward and Thomas Nolan, her son she leaves her father. Her mother having died one year ago.

Earl Annis, the little son of Mr. and Mrs. Geo. Annis, got three of his fingers caught in the feed grinder; the result was painful but fortunately not serious.

The Michelson automobile, with Mr. Michelson, Sr., and Mr. Michelson, Jr., hurrying toward the Thanksgiving dinner in Grayling, met with unexpected obstacles in the way of snow drifts. They secured help from Forest View Farm, and thought they would make it after they got on the level road, but were obliged to get help from Hans Christenson, who took them to town.

URGES MAINTAINING BEERLESS BEERGARDENS

(Continued from front page) activity in the school should be called "Temperance Education" while that outside the school is known as the information activity for the continuance of Temperance Education.

The course for the promotion of temperance should concern the manufacture as well as the sale of alcoholic beverages. These may be grouped as follows:

1—Distilling Liquors; 2—Wines; 3—Malt Beverages.

The aim should be to prevent in as far as possible the abuse of alcohol while the moderate use thereof should be tolerated.

To our way of thinking, the greatest importance is the character training imparted by a good home environment—a good education which aims at physical health, builds up the character—and establishes positive constructive interests which in turn lend stability and fullness to the life of the individual, and to inspire to useful occupation.

Temperance Education should be objective. By this is meant that it should convey the facts necessary for the elucidation of the problem, and particularly where opinions differ, it should guard against one-sided agitation, and give due recognition of plausible reasons which may be alleged in support of opinion.

In the matter of Temperance instruction, the same cautious consideration must be exercised which prevents the school or organization from being used as a platform for agitation in political or other questions of a social nature.

The contents of the Temperance Education should be regulated to the mental development of your audience. It should be noted, however, that for psychological reasons the instruction should remain chiefly individual—at the grammar school stage on which the average child has comparatively little interest in more abstract social question, while at high school and adult stage it may advantageously be given a social turn.

The example to our young people cannot be discounted. All too often their parents fail to realize this and cling to outworn habits and ideals of bringing up—that not only irritate but actually often antagonize their children.

An antagonism such as this can only lead to misunderstanding and sometime tragedy.

The following is a quotation taken from the July Cosmopolitan, an article entitled "America" by Hubert Agar:

"Youth in America is waiting for a band wagon. Youth wants a Cause to believe in, wants something practical to do. This is the great difference between Youth today and Youth in 1920."

"Today, so far from feeling that everything has already been done, the boys and girls between eighteen and twenty-three think that the best fights of all are just about to be fought, that the best ideas of all are now in the air. They don't quite know what the fights will be about, and they certainly can't define the ideas; but they are full of faith that big things are brewing."

All over the country the Youth of today are looking for a band wagon of some sort to climb onto. They cannot, naturally enough, build their own band wagon. But they can give enthusiasm and hard work to anyone who shows them a Cause to follow. And here lies a danger—as well as a responsibility—for those of us who are no longer Youth. If we fail to use this energy, this latent faith and hopefulness, someone else will steal it. People with reasonable ideas must certainly try to give them one.

"I am not claiming that Youth today has unusual judgment, but it has faith that the world is about to prove more interesting than people suspect."

"What comes of this praiseworthy interest depends on the rest of us. If we waste it, if we give it no direction, we shall deserve to see our world repudiated by the young."

It was to give these young people that pleasure in a way which could not harm them that the "Beerless Beer Garden" in Ferndale was sponsored by Mrs. Frederick M. Alger. Its instant success proves that youth as a whole when he can have his companionship, his music, his dancing, will be quite content without drink. Already many more beerless beer gardens are being contemplated and plans laid and we feel sure that they will help to solve the problem we now have with us of youth and intoxicants.

The foundation of the teaching of Temperance Education must be laid in a deep-rooted respect of the Constitution of the United States—that respect which was so nearly lost during the evil days of Prohibition and without which there can be no secure basis in the teaching of Americanism and fundamental patriotism.

The teaching of Temperance Education in regard to health—the effect of that health upon sport must all be made more practical of application of living today. This is especially true of health. This cannot be stressed too greatly in the new teachings. One rarely sees a young athlete break his training during this season. If youth can be taught the effects of over-indulgence upon the physical condition from the sport angle, it will probably be more effective than all the dry medical material offered to

Among the Clerks

(By J. Wellington Bumsted)

Miss Grace Jones has, for the present, given up dreams of being an A-1 stenographer and is now working at the Plaza Grill. It is evident that our Gracie is unable to stay away for very long from the good old jackpines.

It goes without saying that Esmond Houghton is immensely proud of a fine 120 pound "antlered marvel" that he managed to bag near West Branch, Friday.

Howard Granger, of Mac & Gidley's, paused long enough between his Wednesday and Friday working hours to have his turkey with an old and valued friend.

The Wally Johnsons had turkey and cranberries, Thursday, with the Nixons' (Mrs. Johnson's parents), at Cadillac.

Because of a little matter of wrecking, one of the Plaza Grill's handsome young men is now footloose and, staying in evenings a great deal more than he used to!!!

After school hours Miss Betty LaMotte is helping to serve the patrons of the Bakery—and don't think that our little Betty isn't a fine addition!

The days of the Antler Seekers are over again for another year and clerks are recuperating from the strenuous days of feeding hungry nimrods, replenishing the camp larders, and keeping their autos running smoothly.

After thirty days of eating restaurant specials and drinking quarts of scalding coffee and health-giving "AuSable and Grayling Dairy" milk, the city boys have returned to their homes with wild deer stories and a mind refreshed by northern breezes and, as they put it, the tang of the pines. Behind financially, perhaps, but far far ahead in peace and vitality.

"Dutch" Niederer's "little men" have experienced an increase in number during this past week. The little fellow has been given the name of John Jay and arrived Saturday morning. The family budget now consists of one girl and five husky boys.

I am happy to say that Don Charron is "still among the clerks". It wasn't so long ago that he was with the A. & P. sales force and now he seems to be doing himself justice at the Plaza Grill.

JACK HYLTON'S SHOW GOES ON ROAD TOUR

Jack Hylton, noted British band master, who has been heard only on the air since he arrived in the United States with his Continental Revue a month ago, is taking his stage band show on an initial tour of the central west, and opened in Cleveland, Ohio, at the Palace Theater December 1st.

The series of Sunday night radio broadcasts which he is making for the Standard Oil Company of Indiana will continue, it was announced, next Sunday's program being given from the studio of station WHK in Cleveland.

The Hylton show will then return to Chicago, stopping enroute to play and perform at the Junior Prom at the University of Illinois on Friday night, December 6th.

The following week the show will go to Detroit, Michigan, and open at the Downtown Theater. The program on Sunday, December 15th will be given from the studio of radio station WJR in Detroit. This will not be a visual broadcast, it was announced.

STOMACH PAINS NOW RELIEVED

Michigan Lady Says Indo-Vin Dispelled Gas Distress After Meals

MRS. JENNIE GOBERT, of 921 Hovey St. Grand Rapids Mich., says:

"For a period of 4 years I had been a victim of indigestion pains. It seemed like nearly everything I tried to eat would form gas and put me in such distress that I was afraid to try to eat a hearty meal like a normal person does because of this suffering afterward. Finally I found Indo-Vin and it proved to be what I had ALWAYS NEEDED. It had a wonderful action on my stomach and cleared out the gas and relieved all the distress I used to have after eating. I urge everyone who suffers as I did to get this medicine and take it."

Indo-Vin is now being sold here in Grayling at the Mac & Gidley Rexall Drug Store, and by all leading druggists throughout this whole section.

Youth must be taught to realize his responsibility to himself—to the children which will be his—to his country which will be their country—its health—and its future.

I Thank You.

FREDERIC SCHOOL

The third period of six weeks started Monday morning. Let us see how many can be here every day.

The basketball game Tuesday night was very interesting. The boys played a very fast and exciting game. The second team lost their game, played with Grayling, with the score 19-10. The first team won their game, played with Grayling, with a score of 27-14. The boys go to Alba this Friday, and the girls go to Gaylord to play basketball.

Miss Brooks purchased a new kerosene stove for the Home Economics Division, while away over the week end.

The Home Economics girls are working on their third problem after completing their notebooks and cooking aprons.

The Shop boys are busy with mechanical drawing.

We were very surprised to learn of the marriage of one of our teachers. We wish to extend our wishes for many years of happiness and success.

But the teams' the one that's loved by Frederic High.

Synthetic gin, commonly known as bath tub gin, has practically the same ingredients as distilled gin, but they are imperfectly blended. Distilled gin is distilled after the ingredients are combined.

Over 90,000 Tuberculin Tests

THE TOTAL number of tuberculin tests given at Christmas clinics sponsored by the Michigan Tuberculosis Association recently passed the 90,000 mark. Since November, 1931, over 90,000 Michigan people have "made sure" about tuberculosis, and every one of the tests was paid for by Christmas-seal pennies.

The tuberculin test is one of the modern weapons that are being used to discover tuberculosis in the early and curable stages; the X-ray is another. These two weapons of medical science are together responsible for the saving of hundreds of lives in the United States every year. They are the only means of discovering the disease in its early stages.

Twelve million seals—2,000,000 more than in 1934—were distributed in the state this year by the

Old Cough Yields to Buckley's Mixture

READ WHAT MR. GULL SAYS
Hamilton, Ont.: "From the time I was a small boy until the age of thirty-two, I was never free from a hacking cough night and day. Doctors told me I was suffering from chronic bronchitis—that there was no permanent relief. One day I saw an advertisement for BUCKLEY'S MIXTURE. The word bronchitis arrested my attention. I purchased a bottle. It gave me relief. I bought two more, and my cough left me completely. That happened six years ago, and the cough has never returned."

BUCKLEY'S MIXTURE will give you the same instant relief from the strangling torture of Bronchitis, and it acts like a flash on coughs and colds. Why not get a bottle today? Buckley's is sold everywhere and guaranteed. Mac & Gidley, Druggists, will be glad to supply you.

Camp News

CAMP HIGGINS LAKE

To even the strength of CCG companies, organizations having the largest enrollments have been ordered to transfer some of their men to smaller companies. In accordance with instructions eight of the newest enrollees were transferred last week to Camp Kalkaska. Those assigned the new camp were George Vukovich, Stanley Bienkowski, William Vadosky, David Boyle, Leonard Kimble, Robert Kurtz, Henry Stoner, and Louis Williams.

A new class in forestry, instructed by Paul Schroeder of the MECW staff stationed at this camp, had its first meeting Monday night. It is planned to give the educational activities at this camp quite a little stress during the coming weeks.

Library circulation during November was an even 400 books read by 96 enrollees. The number of books available at the library has been increased 20 per cent during the past month.

The Thanksgiving menu at this camp included mixed sweet pickles, green olives, celery, roast turkey, cranberry sauce, giblet gravy, young June peas, Georgia candied yams, fruit salad, hot rolls, sliced tomatoes, mixed nuts, pumpkin pie, mixed candies, fruits of the season, fruit punch, coffee, and Neapolitan ice cream. Better than half the company were home for the Thanksgiving holiday.

Roy Smith of Port Huron, formerly with this organization as a cook, was reenrolled in that capacity last week and is now taking his turn at burning the beans in the kitchen.

The Higgins Lake nursery will roast over 3000 bushels of Norway pine cones during the winter months. Over 1000 bushels of these cones are now on hand. Much of the seed will be planted in the spring. Norway pine seed has a commercial value of about \$1.00 an ounce.

Camp Higgins Lake will have a number of entries in the coming boxing tournament which is being widely advertised. It is hoped that some of the entries will eventually be entered in the Golden Gloves tournament at Grand Rapids this winter. Lieut. S. H. Cropp is coaching the athletes at this organization.

Two men were discharged during the past week for desertion. They are John Brown of Detroit and Lyle Roosa of Lake City.

CAMP AU SABLE

The class in Taxidermy is busy mounting some small fur-bearing animals. Enrollee Lons is doing a fine job as instructor. He has had previous training as a taxidermist.

AuSable will be at the fight in full force Saturday to support the thirteen boxers representing their camp.

The new class in surveying has ten members with Lt. C. S. Allen as instructor. The members have learned to break a chain which is an initiation to a civil engineer's job.

Thanksgiving dinner was voted by the enrollees as a wonderful feast and they are grateful to Mess Steward Wolfe.

Andrew French, an enrollee from Camp AuSable, has received his commission as a Second Lieutenant in the Infantry reserve. He has been called to two weeks active duty at Fort Wayne, Michigan.

HARTWICK PINES

Richard Kotter, Tony Papa, Orval Koole, Robert Fitzsimmons, Andrew Harris, Parnum Kerry, Frank Ogazaly and Wilburn Burris are now in active training for the boxing bout to be held at the Grayling School gymnasium, December 7th.

Thanksgiving dinner at Hartwick Pines was indeed a bountiful feast with nothing left out of the menu to measure up to expectations. Among the guests were Mrs. Saunders and Mrs. Gottlieb and George Marks of Traverse City.

Quite a number of boys are taking advantage this week of the screen feature, "Mutiny on the Bounty." Camp enrollees are indeed fortunate to see the high class educational pictures as are shown at the Rialto.

The Pine Chips staff are working on another issue of the camp bi-weekly news sheet. The issues have been held up the past few weeks because of lack of materials.

Coffield, Grasser and Nielson, along with Mr. Saunders are working on Christmas designs cut in linoleum blocks. Some of them are distinctive in that they carry greetings from the camp.

The meat-cutting class is resumed after two weeks. Mr. Dickerson of Gaylord, who has had the class, has been hunting during the deer season.

Captain Todd, Camp Custer District Chaplain, called at the Camp Tuesday.

Enrollees Ellenberger, Peckens, and Sheffer succeeded in downing their bucks during the season.

SCHOOL ATHLETIC ACTIVITIES

Northern "C" Conference Organized

The Northern "C" Conference was organized last spring and has eight members: Charlevoix, last Jordan, Harbor Springs, Mancelona, Gaylord, Kalkaska, and Grayling. At a meeting of representatives from the above named schools, rules and regulations governing the conference were adopted. Provisions for a trophy to the winner were also made.

Grayling is the only member of the conference to play each member at least once. The Grayling basketball team have a chance to see the class of the conference: Boyne City, East Jordan, Charlevoix, Gaylord and Kalkaska. In the past Boyne City and Charlevoix have been known to have powerful organizations. Traverse City and Petoskey, ranking Class B teams have been victims of their attack numerous times.

At present Grayling is leading the pack, having played the only conference game so far. The Northern Lights defeated Harbor Springs Friday night, 23-19.

The next conference game will be on December 13th with Kalkaska playing here.

Students Sell Season Tickets
Season tickets to Grayling High School's eight basketball games at home are on sale by students. The price of the adult ticket is \$1.25. This is a saving of seventy cents over the regular game price and we believe it will be of benefit to the basketball fans by saving both time and money.

Basketball Clinic Dec. 11
A basketball clinic will be held at the high school gym on Wednesday night, December 11, to enlighten Grayling fans on new rules, plays, etc.

Members of the high school squad will demonstrate plays and there will be a scrimmage between the high school squad and the Cubs. Reliable basketball authorities will explain the new rules.

This clinic is free to everyone and is a splendid opportunity for fans to get the new rules straightened out in their minds.

Gym Has New Score Box
A new score box has been built for the gym. It is much smaller than the old one, but still affords plenty of room for three scorekeepers.

Because it is lower than the old one, it does not obstruct the view of the audience sitting on the bleachers.

Before long a coat of green and white paint to represent our school colors will make this new addition more presentable.

Guess Who?
From now on, as long as possible, we are going to have a new feature in our news column, to be called "Guess Who?" The

editor of this column will write a description of some person in the upper four grades, then the next week the name of the person and another description will be published, and so on. We are sure that this will provide a lot of fun and merriment for the reader and hope that you will get as much enjoyment out of reading it as we have writing it.

He is a he, plays basketball on our first squad, usually wears dark pants and a brown sweater. May sometimes be seen with his collar turned up, looking like some lumberjack from the Wisconsin northwoods. Our subject has brown eyes, is somewhere in the vicinity of 17 years of age. He is half as tall as he would be if he were twice his height, the same going for his weight. And don't tell me that isn't logic, because it took two school days and one sleepless night to figure it out. He is or was quite dizzy over a dizzy blond, and at time of this writing, he has just sauntered into the study hall with a new haircut, and it seems as if the barber got mad at him, er, stump! He may also be remembered as one of the would-be crooners in the amateur contest at the Halloween party. So now Guess Who.

CHILDREN'S BOOK SUGGESTIONS

Recently being children's Book Week, a very fine list of children's and older boys and girls books were suggested by different authorities which might prove valuable to parents in selecting Christmas gifts for their families.

The John Newberry medal awarded annually "for the most distinguished contribution to American literature for children" was established in 1921.

If you have wondered who John Newberry was, he was a friend of Oliver Goldsmith and Dr. Johnson. He first published books specifically for children, and his famous store in St. Paul's churchyard was frequented by the children of London. Frederick T. Melcher, editor of The Publishers' Weekly, donates the prize every year.

Story of Mankind—Hendrick van Loon.

Voyages of Dr. Dolittle—Hugh Lofting.

Yes, and here are a few new books for our boys and girls, to add to their pleasure in reading:

A new copy of King Arthur and his knights.

The Heart of a Dog—Terhune.

Bong-kwe—Hubbard.

A story about buffalo life in Africa, supposedly told by an old hunter. Shamanyati. Not since the publication of "Bambi" has so moving a tale of wild animal life been told.
